Action of the New Orleans Board of Health--The Texas Quarantine to be Raised--From Memphis.

NEW ORLEANS, Sept. 16.—Doctor Loeber, surgeon of the Tours Infirmary, reports to the Board of Health a case of yellow fever, Louis Goldsmith, who came on Sept. 11th from Lugay City, was taken sick on the 12th and admitted into the infirmary on the 13th. The Board met to discuss raising the quarantine but nothing was done and it adjourned until to-morrow evening. Dr. Bemiss stated that he had telegraphed two cases on the responsibilty of the secretary of the Board of Health who told him there were two mild cases. These cases have since proved not to be yellow fever.

Dr. Rutherford, State health officer of Texas, notified the Board that Texas will raise the quarantine if the Board will assure them that the city is entirely healthy, and give clean bils of health to the passengers leaving. The Board adopted the following:

Resolved, That in view of the present

sanitary condition of New Orleans and care taken to continue the most scrupulous cleanliness in the city, and in all steamboats and in other vessels leaving the city, the National Board of Health be, and is hereby requested to co-operate with us in the termination of all other restrictions than those relating to hygienic measures.

A dispatch from Captain Pepper, of the steamboat "Pargaud," dated Delta, Louisiana, says quarantine against New Orleans has been raised at all points except Vicksburg.

FROM MEMPHIS. MEMPHIS, Sept. 16.—Four cases and one death reported. Drs. Ess and Winn, inspecting officers of the State and National Boards of Health, left to-day to investigate the sickness existing

ighteen miles southwest of this city at Horn Lake Island. One death occurred there Sunday and several others are sick in the neighborhood with suspi-cious cases of fever. J. W. Maden, Secretary of the Peabody Subsistence Association at New Orleans, telegraphs to the Howards to draw on them for \$475 for the balance remaining in the treasury from last year. W. T. Hungerford, Treasurer of the Hardware Board of Trade of Pittsburg, also authorizes the Howards to check on him for \$700. The weather is clear and pleasant. Thermometer sixty. LATER.

Six cases, two white and four colored, have been reported. The undertakers report six interments since last night: obert Jobe, George E Ware, Maria O'Donnell, wife of ex-chief of police Thomas W. O'Donnell, Ross Hodges colored), Daniel E. Sullivan, Richard The two last were mentioned in these dispatches last evening. W.S. White, operator in the Western Union Telegraph office in this city, went home this morning suffering with a chill. It is thought he has the fever.

An incendiary fire was started this morning at 9 o'clock in building 154, Main street, occupied by Mrs. John. It was extinguished without serious damage. Mrs. John was absent from

work will be thorough.

D. P. Porter and Colonel John F. Cameron, who left for Nashville this morning, will consult the Governor with reference to further continuance in service of the two colored military companies now doing patrol duty. Louisville, September 16.-The

Board of Health has raised the river quarantine against Memphis, Tennessee. Seven cases of yellow fever have been treated here this season; all imported. Four of the number died.

To Avoid Embarrassment. ATLANTA, September 16.—The Governor has refused to accept Comptroller General Goldsmith's resignation and thereby embarrass the co-ordinate branches of the government now engaged in impeachment proceedings. The treasurer has accepted the resignation of Assistant Treasurer Murphy, who

resigned in order to avoid embarrassing

he treasurer in further proceedings in

LATER.-Treasurer Renfroe sent his resignation to the House this morning accompanied with a proposition to return \$6,000 interest he had received on the State's money. A resolution to accept his resignation was discussed all day without final action. It is thought that he will be impeached.

Massachusetts Republican Conven-

tion. Worcester, Mass. Sept. 16.—The Republican State Convention met here at 1.15 o'clock this morning with thousand one hundred and thirteen delegates present and organized by electng Hon. Alexander H. Bullock, of Worcester, as president. The usual committees were appointed, after which Governor Bullock addressed the convention at considerable length upon the issues of the campaign. Soon after one o'clock the convention proceed to an informal ballot for Governor, which resulted as follows: John D. Long, present Lieutenant Governor of the State, 669; Henry L. Pierce, 505. The nomination of Long was then made unanimous by acclamation.

Meeting of the National Democratic

Committee. New York, September 16.—Senators Eaton, of Connecticut, McDonald, of Indiana, McPherson, of New Jersey, and Barnum, of Connecticut, members of the National Democratic committee, will meet here to-day in an informal conference on the political situation.

The Benefits Resulting from Strikes. London, September 15.—As proof of the depression in trade the Chairman of the annual congress of trades unions which convened in Edinburgh yesterday stated that four of the principal unions had spent £260,000 in re-lieving the wants of its members during the past year.

General Grant's Reception. SAN FRANCISCO, September 16.—Arrangements for a grand reception to General Grant are going forward. The city is being decked with flags and everything done to make the occasion

of his return memorable in the history of San Francisco. Escape of an Insurgent. BUENAS AYRES, September 16.—The notorious insurgent leader, Don Lapez Sordon, has escaped from prison. He has reached Entre Rios and raised a standard of revolt. The value of cur-

London, September 16.—The Man-chester Guardian says: The short time movement at Oldham has not produced any appreciable effect on the market for home yarns. The manufacturers do not seem at all inclined to anticipate a falling off in the supply, and a consequent advance in prices. This indifference does not arise from any doubt about the genuineness of the movement, which it is believed will be joined by a considerable number of private by a considerable number of private firms. The Central Mills Company,

however, which is one of the principal limited companies at Oldham, has refused to adopt short time.

An effort is making to bring about a conference between the strikers and employees at Ashton. A meeting will probably be arranged, but there is no apparent inclination to bring the strike to an early termination. The works of the Messrs. Jones Brothers, plate and nail manufacturers of Middleboro, whose failure has been previously announced, but who kept their mills in operation, were finally stopped yester-day. Six hundred hands are thrown out of employment.

WASHINGTON, September 15. - If Judge Tourgee has told the truth in the interviews reported by sundry papers of the big Northern cities, he was neither bull-dozed or ostracised in North Carolina. If he has lied in that particular, then he is unworthy of credence in all his statements; but what shall be said of those papers which "interviewed" him, and now, in doubleeaded columns, howl about North Carolina Ku-Klux, and zealously work to connect the Ohio adventurer's departure from our State with a "new rebellion," and with a latent disloyalty which may break out at any day and cause our mountain sides to trickle with loyal gore, and our rivers to run red with carpet-bagger's blood! Judge Tourgee spoke with a degree of common sense creditable to him, but with

AN UNDERCURRENT OF PREJUDICE and bitterness not creditable to or worthy of him. He has gone; he has 'strutted" a conspicuous though "brief hour," and while many admire his talents and his independenc, few, I think, will regret that the State has lost him. He, under the changed condition of things, since the days of '68, '70 and '72, has been comparatively harmless. He has said and written some exceedingly rich and racy things. He is not without merits of a certain sort. He will most likely be heard from again ere many years have passed, but North Carolina can get along very well with-out him. The few yet left of the same "itk" among us may depart when-ever they feel like so doing, with pro bono publico inscribed upon their ban-

BRUMIDI'S AMERICA. A sad sight these days is to be witnessed in the rotunda of the capitol; a sight which arouses all the sympathies of those who love art and artists; those of the "baser sort" scarcely give the subject a passing glance. Suspended an hundred feet above the marble floor, in an insecure though cumbrous and ugly-looking basket or cage, day after day Signor Brumidi works with the zeal of an enthusiast and devotee at his great allegorical and historical fresco painting of the history of America. Two years have passed since he began it, and he has not yet completed half of his almost hving and speaking creations are for years and generations vet to come to do honor to his inspiration and genius. But he is growing old and feeble. Years and disease are telling upon him. His steps are tottering and his eyes grow dim. Yet he works. Yet with the vivid dreams of an enthusiast and the inspiration of a poet and an artist he works on. Yet he hopes to see the completion of this magnificent conception of his brain, compared with which, me judice, the works of all the "old masters" are insignificant and trifling! Poor old man-glorious old man—thy days are numbered. But if the prayer of a sinner who admires thee and thy works can be of avail, then will thou live to complete thy task and then -die. Christian or sinner, thy work will entitle thee to a high place among the blessed. If not, it ought to.

THE SPLIT IN NEW YORK is variously commented upon here

though without causing the sensation that might have been expected.

A "level-headed" and very cool and sagacious New Yorker, one well versed in the politics of the State, and a staunch Democrat all the time, said: Glad of it; the rupture had to come now or next year; now it will elect a Republican governor; our people have to be whipped occasionally to keep down disorganizers and preserve uni-ty. If things had been fixed up at Syracuse and harmony restored, why h-I would have broken loose next year, and a Republican successor to

Hayes been the result." Another Democrat, equally true and equally intelligent, said: "Why, don't voa see it? It's all a trick of Tilden's. He knows the State is Democratic; he knows that if the Democrats just go quietly along and carry the State, he (Uncle Sammy) will get no credit for it, and that his "boom" for '80 will materially subside. But if causing a Tammany bolt and an indiscriminate h-l of a row, he can still carry the State for Robinson against Tammany and all, 'twill redound to his glory 'twill secure him the nomination next year." These and a thousand other opinions are floating around. Predictions and prognostications are out of my line. I don't even "guess" at things. But I'll venture this much, if New York furnishes the next Demo-eratic candidate for the Presidency, Grant, Hayes, Sherman, Blaine or Conkling will be elected. I don't mean roguishly and scandalously and out-rageously and infamously "counted in," but actually elected, which Hayes

was not. PRESIDENTIAL COMBINATIONS.

Bayard and Ewing; or Thurman and Hoffman; or Palmer and Eaton; or others who might be mentioned would be elected over any combination that Radicalism would put forth. But the fool-killer has not fully accomplished his mission yet; and the usual and fatal mistakes may be expected on the part of the Democracy next year, which have marked their course since '68. Senator Vance is in the city; stopping at the Metropolitan-which, by the way seems to be a favorite abiding-place with North Carolinans. (And it's a good place to stop at; with first class accommodations and reasonable charges; and they don't give me even a cold lunch or a diluted drink for saying this-and most likely will never know that I did say it.)

The Senator's health is "prime"his friends and visitors are numerous; his time is probably too much taken up by them. He leaves for Kansas tomorrow, provided the distinguished chairman of the Ingalls committee, Senator Saulsbury, of Delaware--who is proverbially slow and cautious—gets ready in time. Yesterday a severe and "rattling"

over the city preceded by a summer-like Saturday of sunshine and perspiration: now the weather is cool, breezy and bracing. Very little sickness here-though fatal cases of typhoid fever are reported.

The Presbytery of Orange will meet on the 16th of October, at old Alamance church, near this city. At that time the new church is to be dedicated, and on Saturday, Rev. C. H. Wiley, who was raised in sight, will deliver an address, and give an interesting history of its rise and progress to the present time, and in addition will preach the dedicatory sermon, which, on the whole, will make that occasion unusually attractive, and should call together a larger congregation than usual Mrs. Potts arrived here on Saturday evening, on her return trip from New Orleans, stopping over and was the guest of Mr. Steel, at the Central Hotel, remaining over and resting till this A.M. when she left on her Northern trip. A quarter to 9 I called at the hotel and had an interview with her and gathered the following facts: Left Philadelphia the 12th of May, to walk to New Orleans and return. Passed Greensboro the 7th of June, staid in New Orleans five days and left the 25th of July; lost 14 days going down, and to this time lost 7 days on the return trip; the trip from New Orleans to this place, being 858 miles, and the miles still before her to walk being 5%, and expects to reach Philadelphia the 12th of October or before. The States of Georgia and Louisiana did not charge her a cent for board

or lodging, or any expense. And the whole trip from New Orleans back here cost her but \$6.25. She is a middle sized lady, and quite light of step, carrying only a little parcel, and a small short stick, and gets over ground quite rapidly, is quick spoken, about five feet high and not very prepossessing in appearance, pleasant in manners and says not a lisrespectful word, motion, or anything out of the way has been shown to her on the whole trip, and speaks of the

Her trip down was via Lynchburg, this way and back via Richmond, and to-night she is to be at

THE CHISHOLM TRIAL.

ENERAL WOODFORD'S REPORT OF THE AFFAIR.

The Trial as it Was--- A Fair Jury Panel---How Gully Came to

Washington Republican, 16th. General Stewart L. Woodford, of New York, arrived in Washington last night direct from the scene of the trial of Gully, one of the Chisholm assassins, in DeKalb county, Mississippi. He appears to be prepared for his fate-the inevitable fate of being interviewedfor he understood and duly appreciated the anxiety of the public to get his views, the result of his close personal observation of this now notorious trial, and gracefully submitted to consequent questioning by the National Republican, with results as hereto appended.

We here give the matter relating exclusively to the trial.]

Q.-Did you anticipate any danger in attending the trial? A. (emphatically) -No, sir. The common sense of the country was pledged to let Mrs. Chisholm go and return in safety. The result showed that the indicted parties stood in no peril, either from her, or indeed from any testimony that could have been given on that trial by any-body. As for myself, I received during this visit, as I have always received on my several visits to the South since the war, entire civility and courtesy from every person I met. Q.—Did not Judge Hamm, who tried

the case, do his duty? A.—He did, fearlessly and justly. If he erred at all in his rulings, he erred in favor of the prosecution, and against the defense. It is not the fault of Judge Hamm that wholesale murder still walks unpunished in Kemper county. Q.—What is the name of the district Q.—What is the name of the district attorney, and what about him? A.—Thomas S. Ford, and he did his duty well and bravely. I studied critically his conduct of the case. He had prepared it with care and tried it with good sense and sound professional judgment. He was assisted by Judge Ware, an ex-chancellor of one of the Mississippi districts, and by Joshua L. Mississippi districts, and by Joshua L. Morris, of Vicksburg, who is certainly one of the most logical and forcible criminal lawyers whom I have met at any bar. I think that the prosecution made out a clear and complete case of murder. The charge of the judge was distinct, direct and positive, and yet the jury were only out long enough to

take one ballot and write their verdict, which, under the Mississippi law, has to be written and signed by the jurors.
Q. How then do you account for the verdict? A .- I do not know how to account for it on any grounds that are not discreditable either to the intelligence or the moral sense of the jury. and I do not think that the nine white men on the jury were lacking in intelligence. The three negroes evidently possessed neither brains nor courage. The whites were a fair average of the white men on the jury panel as well as of the entire white community.

Q.—Did you ascertain the politics of the jurors? A.—I did. The whites were all Democrats. So were two of the negroes—at leas I was so informed by one of the counsel for the defense. The remaing negro was probably a Republican, but evidently without sense to form or courage to maintain any in-

telligent opinion on any subject.
Q.—Was the jury fairly drawn? A.
—It was. Of the seventy-five names drawn for the special venire fifty-one were served and presented themselves in court. Of these twenty-five were black and twenty-six were white. Whatever else may be said of Kemper county, it must be frankly admitted the jury list of the county is fairly made up. It contains over two thou sand names. Two-fifths of this number are blacks and three-fifths white. The officers charged with making this list have done their duty impartially, and the special panel drawn from this entire list was honestly drawn.
Q.—Do you think the verdict fairly

represents the feeling of Kemper county? A.—It does not represent the feeling of the great mass of the negroes; nor of the white Republicans; nor yet of a small minority of sober and law abiding white Democrats. All these three classes combined constitute a clear and decided majority of the citzens and legal voters of the country. But I am sadly and reluctantly com-pelled to say that I believe the verdict truthfully and honestly represents the present judgment and wishes of the white men of Kemper county. I tried to observe carefully and judge candidly, and I think that the average present opinion of the white people of Kemper county in regard to this whole matter is about this: They think it was unfortunate, but natural and almost excusable that Judge Chisholm, John P. Gilmer and Amos McClellan were shot by the mob that Sunday morning in DeKalb. They think that Miss Cornelia and Young Johnnie Chis-holm were accidentally killed by those who attempted to kill their father. This killing of the children is almost universally regretted. But they think the conviction and execution of anybody for the deed would be equally unfortunate, and that the entire matter had better be allowed to die out and be forgotten. There is no intelligent and brave purpose to vindicate the law and punish the mob or its ringleaders. In a word, while judge and district attorney try to do their duty, there is yet no brave, tolerant and law-abiding public opinion behind them to hold up their hands and enforce the law. The friends of the law among the people are quiet and powerless. The friends of the mob are resolute, outspoken and dominant. The jury practically in-dorsed the deeds of the mob, and such public opinion as is to-day heard and felt in Kemper county sustains and indorses the verdict of the jury.

The Swimming Tournament-An Ex-

citing Contest. NEW YORK, Sept. 14.—The swimming tournament for the championship of America and \$1,500 and \$750, took place to-day opposite Bath, L. L, the contestants being Matthew Webb, of England, W. H. Daily, of California, George H. Wade, of Brooklyn, George Wer-han, of New York, and Ernest Von Schoening, of Brooklyn. The swimmer making the greatest number of miles up to 8 o'clock was to be declared the winner. The course was a quarter of a mile long. The men wore light trunks, and smeared their body with grease before starting. The start was effected at 1,20 P. M.
At 4.43 o'clock Wade swam off his

his course and shouted for help, saying he was unable to see. He was taken on board the barge and dressed, and soon recovered his eyesight. He said that he had been rendered water-blind from the water dashing continually in his face. At 5.34 o'clock as the Californian was sharply turning the north was sharply turning the north-

had to be helped on board the boat to his dressing room. The three remaining swimmers still kept steadily at their work, and were cheered one after another as they passed the stake boats. At 6.35 o'clock Webb threw up his hands for assistance, and a moment or two later was taken from the water by Captain Hartley. He said he had been seized with the cramp in his stomach and could not swim another stroke. Soon after night set in and lamps were placed in the stake boats. At 7.10 o'clock Werhan called for help and had to be taken from the water and assisted to his dressing room. Five minutes later, it having become very dark, the judges called out Von Shoen-ing, and deciared him the winner amid loud cheers. The score made by the contestants is as follows: Von Schoen ing 7 1-5 miles, Webb 6 miles, Daily, 4 4-5 miles, Werhan 4 4-5 miles, Wade, 3 1-5 miles. The contestants were all brought back to the city.

WAS HE LYNCHED.

Found Hanging Near Where he had

Attempted an Outrage. MILL CREEK, Pa., September 15.—On Sunday last, Nellie Bonn, the sixteen-year-old daughter of a well-known farmer, who dwells near this place, stopped at the house of a neighbor named Boyd, on her way home from church. She stayed to dinner. In going home she had to pass through a piece of wood. At one of the loneliest places on the road, Stephen Boyd, nineteen years of age, a son of the family with whom she had just taken dinner, sprang out of the woods. He had for some time tried to pay his addresses to Miss Bonn, but his reputation was not good, and she had repulsed him. He seized her and attempted to carry her off into the woods, but her shrieks attracted two men who were working near by. They found her struggling with young Boyd on the ground. He was holding one hand over her mouth and choking her with the other. When the men appeared he ran away into the woods. The alarm was given, and men coured the country, but could not find the fugitive. They were agreed that he should be lynched. On Wednesday last he was found hanging dead by his suspenders from the limb of a tree, two said to be in a critical condition.

DESPERATE WOMEN FIGHTING Five Shots Fired, and One of them Fatally Shot in the Abdomen.

New York Sun 15th Mrs. Lena Voglesine and Mrs. Esther Seins were next door neighbors in Hempstead, L. I. They had lived near together for five years, and had quarreled frequently. Mr. Seins leases an unfenced lot in front of his house, and Mrs. Voglesine drove her cow to graze there in spite of Mrs. Seins' protests. Mrs. Seins frequently drove the cow. away, and the tw

women became bitter enemies. On Saturday afternoon Mrs. Vogelsine put her cow into the lot leased by Mr. Seins, and asked Charley Hart, ten years old, to watch the animal. Mss. Seins thereupon attempted to drive the cow away. Mrs. Voglesine returned The women quarreled, and came to blows. Mrs. Voglesine sent the boy into her house to get a revolver, and on his return with the weapon, she fired five shots at Mrs. Seins, one of which took effect in her head and the other in the abdomen. The women grappled, and Mrs. Seins took the revolver from her enemy.

The wound in Mrs. Sein's head is not serious, but it is thought that the other will cause her death from internal homorrhage. She was too week to make an ante-mortem deposition; but she recognized Mrs. Vogelsine when the latter was taken into her presence. The wounded woman is Irish, and her husband is German. She weighs over 200 pounds. Mrs. Vogelsine attempted to escape after the shooting by driving to Pearsall's, but she arrived too late to take the train from there, and was arrested. She was arraigned before Justice Clowes and committed for examination to-day. She is a German. Her head was badly cut in the fight, and her face was scratched. At last accounts it was thought that Mrs. Seins was dying.

ROBBERS IN PENNSYLVANIA.

An Old Lady Bound and Gagged, and Nearly Frightened to Beath. LITIZ SPRINGS, Pa., September 14.— Samuel Nagle and his wife, an aged couple, live alone near South Mountain, in Lancaster county. It was generally believed that they had a considerable sum of money hidden away in their home, and on Tuesday evening, in the absence of the old man, a number of disguised men came to the house and kicked in one of the rear doors. Mrs. Nagle was sitting in a rocking chair in the sitting room, reading her bible, when the masked men entered. They threw her on the floor, bound and gagged her, and ransacked the house. All the carpets were torn up. No money was found. They then threatened to kill her if she did not tell where the money was hid. The gag was taken from her mouth, and a pistol was pointed at her head: but she was so frightened that she could hardly speak. She said that there was no money in the house, and she closed her eyes expecting to be killed. The robbers again ransacked the house and went away When the old man returned he found his wife nearly dead with fright and injuries. At last accounts she was in danger of dying from nervous prostra-tion, and at times she is out of her mlid. Some jewelry and silverware were carried off.

FROM WASHINGTON.

The Democratic National Committee and Party Differences. Washington, September 15.—The meeting of the executive committee of the Democratic National Committee called for Thursday next, is for the purpose of consultation in regard to the political situation in the various States where elections are to occur this fall. There seems to be a depression among the Democracy, caused principally by the faction fights in their party, which are going on in New York and Ohio. It is charged that the big men of the party in Ohio are careless about the main issue in the campaign-the carrving of the State-and are giving their principal attention to the United States senatorship. From Pennsylvania the report comes that the unpleasantness between Senator Wallace and Speaker Randall has broken out afresh and that the campaign there in consequence is without proper vigor. The commit-tee hope to devise a plan which will put life and enthusiasm into the Domocratic canvass in all the States, and not allow the elections to go by default. A Democratic Congressman now here takes a gloomy view of the Democratic outlook in the approaching elections. He attributes the loss of ground by the Democracy to the manipulations of the several aspirants for the Presidential nomination next year. He says these ambitious men, seeing that Democratic success in the next Presidential cam-paign was almost a certainty, they could not restrain themselves and keep their hands off, but had to pitch in to Adam Forepaugh, the old man Adam's son, rode up to Dick and gently tapped him with his riding whip. Dick lunged for the lad and unhorsed him. Adam sees it but the Raleigh people can't, manipulate for their own selfish ends,

CARD FROM DR. LEDOUX.

THE YEARLY ANALYSES OF FER-TILIZERS.

The Reason Why the Publication is Delayed .-- The Workings of the Present System.

Correspondence of the News.

CHAPEL HILL, Sept. 15 .- Permit me to explain through your columns why it is that the yearly analyses of fertilizers are not all given to the public before the month of June. This has been frequently noticed in the papers of late, and I trust that an explanation will be of interest to your readers. The reason is simply because it is not possible to obtain fair, fresh samples in time to permit an earlier completion of the

work, There are but three ways in which samples can be obtained. One is by sending an agent to the fertilizer factories and having him select specimens of the stock on hand. Or, secondly, request manufacturers to send in the fall or winter, samples of such goods as they propose to sell in the spring. The objections to these two plans are insurmountable. The expense of an agent would be very great, as the factories are scattered through every State from Massachusetts to South Carolina. And second; it is not possible for half the manufacturers to furnish samples of the goods they propose to sell in March or April, before February or March at

the earliest.

This is a fact, and its cause lies in methods of manufacture which I will not take time to explain. The Commissioner endeavored last winter to obtain samples for use by requesting the manufacturers to send such as they intended to sell in the spring, and, al-

though some did send, the majority wrote that it was impossible to furnish them, and the plan failed. The last and safest method, although it involves delay, is the one now employed. As soon as the year's supply of fertilizers begins to come into the State (the goods being fresh from the factories, and thus fair representatives of each brand) an agent of the depart-ment goes through the State, and does not stop until he has obtained a sample of each brand legally on sale. He started this year about March 9th

and the last sample was received by us in Chapel Hill on May 5th. The advantages of this plan are many: First. The fertilizers are sampled after they are beyond the reach of their

makers.

Second. The samples represent goods actually on sale in the State. Third. Instead of coming from one ocality they are obtained from all over the State, and the manufacturers

never know where the year's sample will be drawn. The only disadvantage that this plan offers is that the analyses cannot all be completed before the farmers have made their spring purchases. As soon as the samples come in, all other analytical work is dropped, and our whole time devoted to them. As soon as one analysis is completed, it is sent to any farmer who has requested it, and also furnished to any paper willing to publish it. With our present force it is not possible to complete all the analyses before June, when they are all printed in pamphlet form and distributed. It would be best, if it were possible, to call in extra help when the samples come in and finish the work at once; but chemists, especially chemists trained in the class of work required at the station, are not to be obtained like a carpenter or painter whom we simply have to

send for when wanted. I regret our inability to publish the complete list of analyses sooner, and should be sincerely glad if any one could suggest a plan by which fair samples could be obtained earlier. As it is, a prospective purchaser has this to guide him: he can compare the standing of any one brand during three successive years, and note whether there has been any radical change for the better or for the worse, and can feel sure, if there has been an improvement, that it was real, since the samples came from lots actually on sale in the State. For example let us take "Bradley's Super-phosphate" as found in our tables of analysis. We see that its commercial

value has been as follows: 1877 \$35,26 Comparing in this way, we can get a very good idea of the probable value of any one brand which we wish to purchase.

ALBERT R. LEDOUX.

Sale of the Rudisill Hill Mine. Charlotte Observer, 16th. After protracted negotiations this well-known property, situated near this city, changed hands yesterday, having been sold for a large amount to New York and Boston capitalists. It will be placed in a stock company, organized under the laws of Connecticut, which fix the price of shares at \$25 each, and probably be placed upon the New York stock board upon a basis of one hundred thousand shares, the stock exchange excluding mines of a less number of shares than this. The new organization retains W. J. Smart as superintendent, with William Jenkins foreman, James Martin assistant foreman, Harvey Barnes foreman of mill, and George Schadd assistant. The names of fifty men appear at present on the pay roll and others will probably be employed. Additional stamps and improvements will be placed in the mill. The mine is in first-class condition and capable of a large out-put of

ore at any time.

The successful future of this famous property now seems assured. During the past week a car-load of sulphurets was sold to the McAndrews Reduction Works, of Williamsburg, New York, for \$25 per ton cash, at the mine, total amount \$241, and superintendent Smart took from the mill \$437 in gold, giving 8678 as the product for the last week under the old administration.

American Enterprise.

Washington Post. Many of our wealthy citizens and prominent real estate holders have ac-cumulated their handsome fortunes in a few years on official salaries barely sufficient for their support. This fact strikingly illustrates the indomitable enterprise of the American character.

"VOLUNTARY CONTRIBUTIONS" Were called for on Saturday by the chairman of the Republican Congressional Committee. Of course the faithful will respond. President Hayes is off in Ohio, and therefore is not supposed to be aware of this fresh levy on the pockets of department clerks-they being about the only ones interested.

REPORTS from Washington say that it is considered there that Blaine's chances for the Presidency have been damaged, instead of improved, by the result of the Maine election. The combined opposition have a majority of the popular vote of the State, and it is thus shown to be doubtful whether Blaine could carry his own State-a condition of things not favorable to an aspirant for the Presidency.

THE Chicago Tribune of Saturday has sixteen pages, five of which are filled with criminal details all occurring within the righteous State of Illinois. In fact it is so full of these relations that it can only devote a column and a half editorially to the Gulley trial, and for once there is not an allusion made to the Dixon matter. This will not do. Such shameful neglect will ruin the Radical cause.

THE Tribune recognizes the fact of Mr. Tilden's strength and vitality, and its harmless jests are laid aside while it canvasses the situation. It clearly betrays in a leading editorial the dread it has of this astute politician, and tenders advice to the Republicans in this wise:

It would be well for Republicans not to count upon any assistance whatever from th se quarrels of Democrats. To stop them now does not seem possible, yet it should be remembered that the necessity of doing something to arrest them will be apparent to every Democrat who wants to succeed in

WHEN a few years ago some importations of wheat from East India were made into England, writers over there assumed that Asia was to become a formidable competitor with America in the food market. This is not to be realized just yet, however, as a statement submitted to Parliament by the government director of India railways, though admitting that railway receipts were swollen somewhat in 1877 by the carriage of grain, states that last year (1878) India was unable to compete with America in the exports of wheat; American wheat being landed in England at 30s. a quarter, while Indian could not be supplied under 40s. It is but some four years ago that India exports to Britain

CAPTAIN CARRY considers himself vindicated in regard to the Prince Imperial's death, and will remain in the service. He states that from the first moment of his arrest he took the whole matter to his Heavenly Father, and left it in His hands. Now he regards the official decision, to quash the courtmartial proceedings, as a wonderful and direct answer.— Christian Union.

This may possibly be so; but to us the statement savors more of hypocrisy than faith. There is no doubt that the findings of the court-martial were erroneous; but when the proceedings came before the head of the army in his character as reviewing officer they were speedily disapproved. If courtsmartial proceedings were left to the Deity to be disposed of Fitz-John Porter would not have been borne down with the stigma that attached to him through the findings of a prejudiced military court.

In the local columns of the News of yesterday's issue we made the brief announcement that Mr. P. M. Hale, so well and favorably known as the former editor of the Observer, would soon commence the publication of a weekly paper in this city. At the time we had not seen his prospectus, and therefore could not knowingly speak of the stand he proposed to take. Subjoined will be found what he has to say regarding his new enterprise:

On Tuesday the 7th day of October, 1879, and in the city of Raleigh, the undersigned will commence the publication of *Hale's Weekly*, "a North Carolina Democratic Newspaper." These four words convey all that a column of Prospectus could tell: the good of the State; the success of the Party which is the life of the State and the country; the publication of all the news; these the objects proposed. That he can do the last and contribute to the first and second, the subscriber does not affect to doubt. The people have set their seal of approval upon his past and he does not doubt the future.

We wish him success in his venture: an able and dignified writer, a courteous gentleman, he possesses the qualifications that entitle him and any iournal wherewith he is connected to the respect and support of all. Mr. Hale states that the paper will be printed on new and beautiful type and on fair white paper. The price will be \$2 per annum. No name will go upon its mail books without payment and no paper will be sent after expiration of the time paid for-which latter clause we may simply say, is the only true

basis on which a newspaper can be successfully conducted. THE ISTHMUS CANAL SCHEME.

For some few weeks past the various plans and routes for an inter-oceanic canal have been discussed with no tangible result. When the plan approved by the Paris congress was laid before the people it seemed to meet with considerable favor, and a company was formed that received a certain amount of subscriptions. Then up jumped Senator Burnside and threw cold water on it by stating that the Paris scheme was in conflict with the Monroe doctrine, and thus the American patriotic fire was lighted at once. M. de Lesseps, the successful engineer of the Suez Canal. was the president of this company; but owing to the American opposition coupled with the announcement on irresponsible authority that it was a swindling affair he has ordered the return of the money advanced, and thus disposes of the present prospects of an early commencement of the work and his traducers at the same time. The owing to the American opposition

Nathan Appleton, of New York, late president of the Chamber of Commerce, and he, a Republican himself, has been so badgered by his political associates and so hotly denounced by the leading journals of his party for his sympathy with the movement that he felt compelled to resign his position in that body, although an old, able and highly respected merchant.

At first sight it might appear as if our people were so thoroughly imbued with the tenets of the Monroe doctrine that they would stupidly throw away any and every chance that might tend to increase commerce and benefit themselves, although the Americans are generally classed as a far-seeing people. It was natural also to expect such a scheme would meet with opposition from the trans-continental railroad companies. But this is not the trouble, It has been proposed to form an American company (but where the money is to come from no one seems to know) with General Grant as president; and the proposition is based upon Admiral Ammen's view of the present condition of things. The Amiral believes that "an Ameri-

can company cannot be formed until it is known what the Nicaraguans intend to do. The Nicaraguans cannot draw up concessions until a company is formed. The difficulty will probably be solved by the Nicaraguans explaining their views to Grant, for whom they have an unbounded respect and in whom they have unlimited confidence, and this explanation will make a basis for definite action."

It is further stated that the scheme will reach completion in a short time after the General's arrival in New York. which will be about the 1st of November, and active operations will probably be on foot within a, satisfactory period.

It would seem that this great work is not a question of national or international polity, but a pure matter of personal politics, dependent on the result of the Republican national convention of next year.

THE Hon. Abram S. Hewitt announces himself as pleased with the renomination of Governor Robinson. He is also a member of Tammany, and has the following to say about it:

Mr. Kelly's idea appears to be that he, as the leader of Tammany, should not only dictate in all matters relating to the Democratic party in this city. but he should govern the State and National conventions. This arrogance must be defeated at some time, and there is no better time than the present I do not believe that he will have any considerable following nor his defection will have any possible effect upon the Democratic vote. If any number followed him they will be of a class that the party can well afford to lose. I take no stock in anti-Tammany or outside movements, and consider myself still a member of Tammany, but, like many others, I am opposed to one man rul-

If General Grant accepts this post, and Nicaragua makes the requisite concessions, we suspect the canal will be General Grant has at least shown a great capacity for adequately measuring the means requisite to accomplish great ends, and for finding those means, even when they are somewhat costly .- London Spectator.

Let the abandonment of Robinson be disguised under such euphemisms as it may, it would mean simply a surrender of the better to the baser elements of the Democratic party, and it would carry with it the tacit assumption that the Democracy of the State of New York is ruled in the slums and directed in the corner grogeries of this city. -New York Times.

If the man who works is willing to work at the current rate of wages in Fall River he is no longer a working-man, but "a scab," and his life is in danger. By what alchemy does a pet-tifogging lawyer in California become a a workingman? By what mysterious process of transmutation does a plodding mule-spinner from Vermont become a foul excrescence, and no working man, when he takes the market rate of wages in Fall River? Mr. Kelly's Sagacity in Figures.

New York World. The present leader of Tanımany Hall made his first political campaign at the head of the New York City Democracy seven years ago, and although it ap-pears difficult for many to believe it, it is a fact that he has failed in all his

It is a fact that he has failed in all his greatest annual undertakings, with the exception perhaps of one. The results of his great campaigns may be briefly summarized as follows:

1873.—In this year the New York City Democracy gave Willers, who headed the State ticket, a majority of 32,159, while Walsh, Mr. Kelly's local candidate for County Clerk, was only 14,14. date for County Clerk, was only 14,1:4. At the meeting held in Tammany Hall the evening after election General Spi-nola presided. Mr. Kelly sat on his right and Captain Isaah Rynders did

most of the speech-making.

1874.—The Tammany chieftain put in nomination for Register his friend Jimmy Hayes, and devoted all his energies to elect him over Patrick H. Jones. Mr. Kelly's war-cry during that campaign was, "Hayes, the faithful when others were fatherless," and the World of November 1, 1874, said that "the only contest on the general city ticket is for the Registership." Result: Jones' majority over Hayes, 9,855. 1875.—In the fall of this year Mr

Kelly made a memorable campaign against John K. Hackett, Benjamin K. Phelps and John Morrissey, who were candidates respectively for Recorder, District-Attorney and State Senator, Result: Hackett elected by 26,500 ma-

his traducers at the same time. The only triend that M, de Lesseps seemed to have on this side of the Atlantic in connection with this affair was Mr.

him a majority of 53,000. Mr. Kelly's speech at Tammany Hall while the election returns were coming in: "It would be the height of presumption for me to say that this glorious result has been won by Tammany Hall alone!"
1877.—This was the year in which Mr.
Kelly made the most herculean effort of his life in his attempt to elect Augustus Schell as Senator for the Seventh District. John Morrissey moved up to the Seventh District to defy the lion in his very den. On the night before the election Mr. Kelly was sure of victory, and indeed the betting in the poolrooms was 100 to 80 in favor of the great political leader's candidate. Result: Schell defeated and Morrissey elected by a handsome majority. Mr. Kelly's speech at Tammany Hall that night was the truest utterance of his whole "Let the disgrace and the infamy rest upon them to whom it belongs.

date me. I often fight better under defeat than after a victory.' 1878.—Another great campaign was fought by the Tammany stateman, his particular enemies being Edward Cooper, the candidate for Mayor, and Benjamin K. Phelps, candidate for re-election as District-Attorney. Mr. Kelly's candidates were Augustus Schelland Smyth. Result: Cooper and Phelps elected by immense majorities. Mr. Kelly's after speech at Tam-many Hall: "The people will find out in less than six months that they have beaten themselves. An immense wrong has been done. But John Kelly is not crushed and Tammany Hall is not crushed. You may rest assured that this organization will win at the next

Dear Sir,—During the past five years I have had ample opportunity to judge of the merits of Vegetine. My wife has used it for complaints attending a lady of delicate health, with more beneficial results than anything else which she ever tried: I have given it to my children under almost every circumstance attending a large family, and always with marked benefit. I have taken it myself with such great benefit that I cannot find words to express my unqualified appreciation of its goodness.

While performing my duties as a Police Officer in this city, it has been my lot to fall in with a great deal of sickness. I unhesitatingly recommend Vegetine, and I never knew of a case where it did not prove all that was claimed for it. Particularly in cases of debilitated or impoverished state of

Do it to Fayetteville street. -Edward Gray, care of J. McDuffie, is the way an unmailable letter is addressed at the post office. As neither Mr. Gray or Mr. McDuffie seem to have a post office this letter is non-deliverable.

-An improved form of challenge is the following by a Quaker: "If thou wilt eat twelve unripe apples upon retiring to-night, I will do the same, and we shall see who survives." Now isn't that "courting death" with a ven-

-At one o'clock yesterday morning, says the Landmark received here last night, the six days' walking match at Norfolk was progressing; the score for the first twenty-four hours standing as follows: Nolan, 100; Clifton, 85; Williams, 71; LeRoy, 70; E.ine, 70. It will be seen that the Philadelphia man is thus far ahead.

-An article that is often needed in the house for medicinal purposes is found at the store of F. B. Hill, corner of Wilmington and Hargett streets. The brand is the "B-Select," and it comes from the old and well-known house of Walter D. Blair & Company, Richmond, Va., for whom Mr. Hill acts as agent in Raleigh. Try it.

-Alex. Burton (colored) who has been occupying apartments at the county bunking house for several days past, has decided to spend the season with the sheriff. He was taken before United States Commissioner Purnel yesterday for an investigation of his case, and the evidence demanded \$200 bail till November court, or a suite of rooms in the county jail. Alex. took-the suite of rooms.

-A six days' walking match was begun in Mechanic's Hall, Norfolk, yesterday. The Landmark says the following champions were to enter: J. Clifton, champion of Maryland; Harry LeRoy, champion of Delaware; William Nolan, of Philadelphia, and Frank Eline, of Virginia. Pedestrianism is becoming a favorite sport, and the people would be pleased to have some of these champions display their qualities in that line at our State fair next month. Can't some arrangements be made with them to that effect?

The Drummers' Corps.

Drummers' licenses were yesterday issued by the State Treasurer to the following business houses: Darby & Co., Baltimore; A. Rosenthal & Co., Petersburg; Thaxton & Elling, Richmond.

Police Court.

The Mayor had only two trivial cases before him yesterday. Two drunk and down unfortunates were consigned to the secret shades of the station house for twelve hours each to sleep off their boozy spell.

Revival at Cary.

The Rev. Dr. J. B. Bobbitt begun a revival meeting at Cary on Sunday last. There were seven conversions and seventeen penitents Sunday night, with prospects for a large increase over this number before the meetings close. It is expected the services will be continued for several weeks perhaps. Dr. Bobbitt has been doing a big work in this direction lately.

More Convicts. Deputy sheriff W. E. Parish, of Warren county, yesterday turned over Henry Jones, Henry Johnston and Anderson Jones to the penitentiary authorities. All three are colored and all sent up for larceny. Their terms range

from one to four years.
S. M. Harrell, deputy sheriff of Wilson county, also contributed two additional conscripts to the State's service. Luke, alis Lark Saunders, larceny, one year, and Sam Edmundson, rape, fifteen years, both colored.

Accident to Captain Guess.

Yesterday afternoon while Captain H. P. Guess, roadmaster on the Raleigh & Augusta Air-Line Railroad, was riding on his handcar between the two depots, the car came in collision with a switching engine. Mr. Guess, seeing the danger, jumped from the handcar, and being an elderly man fell heavily and broke his leg just above the ankle. He was taken to his home, where his injuries were promptly attended to.

Jerry and His Little Brown Jug.

Jerry Evans lives in the country, and Jerry has a little brown jug, about the size of a five gallon measure. Jerry always attends the public gatherings of his neighborhood—and so does his jug. The jug generally manages to be full (so does Jerry) of corn juice, and thirsty citizens find relief by applying to Jerry with a proffered nickel. Deputy King hearing of Jerry's way of "meanshining" navs him a call and "moonshining" pays him a call and kindly invites him to accompany him to Raleigh, which invitation Jerry reluctantly accepts. He is now resting in jail awaiting an investigation of his case, which comes up before United States Commissioner Purnell this morn-

rd with the Board of A A News reporter, by invitation from Mrs. Karrer, yesterday visited her premises on Martin street. There is a tremendous gully, from eight to fourteen feet deep, running through the entire block, of which her lots form a part; it is there in its natural state— ust as the rain washes it from time to

time. It is true there is a culvert across the road, but it extends no fur-ther, and Mrs. K. finds it impossible to get a fence to stand at all across this ditch. After a big rain, pools of water may be found standing for days. It is a disgrace to the city as well as a great nuisance, and it is to be greatly desired that the proper city authorities will take hold of the matter and have a culvert built across the entire square. It is the only means of remedying it, and unless this is done, houses in that neighborhood will be turning summersaults as the earth is washed from under them. There are several huge stones about ready to fall from the south end of the culvert (about fifteen feet from the bottom of the ditch be neath); and there are also a number of young children living in this neighborhood. These children are frequently seen playing in the sand just below these stones, and some of these fine mornings there will be a land (or stone) slides that will lay Mud Cut forever in oblivion, and increase the undertaker's business to an amazing degree.

The Aldermen are respectfully asked

to give this matter some attention. Messrs. Johnston & Wiggs. Attention is directed to the adver-

tisement of this reliable and popular firm which appears in to-day's News. They are capital business men and deservedly enjoy a good run of custom. A full line of groceries, meal, bagging and ties, etc., etc., will always be found at their establishment on Wilmington street. Give them a call, they will treat you right.

Messrs. W. C. & A. B. Stronach.

It is gratifying to note the continued prosperity of this splendid grocery house. They have just received the largest and best stock of groceries, heavy and fancy that they have had for years They will tell the readers of the NEWS, through an advertisement, of the many good things they have in store. Orders by telephone promptly filled.

This is an old established and reliable

nouse; both members of the firm are clever popular gentleman and doan ex tensive business.

Tupper Church Again.

Or rather the reverend Arthur Wil liams, pastor and shepherd of this church and its flock, seemed enamored with the lawful wife of one of his congregation to such an extent that he was up before Justice Barbee yesterday upon a charge of f. and a. Cherry Thrower is the name of the unfaithful wife and she and the Reverend (? Williams will appear before the Judge of the next Superior Court. In the meantime they are under a \$50 bond for their appearance. This is the latest Tupper church row but not the least, it is safe to predict.

BOVINE, MISSISSIPPI, April 22, 1879. The following correspondence will explain itself: A. WADDILL, Esq., LYNCHBURG, VA.—Dear Sir: Observing a certificate from you in reference to the "Iron and Alum Mass," of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether you used the "Mass" or the "Water;" also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will

greatly oblige, very respectfully,
WILLIAM BARR. LYNCHBURG, Va., May 12, 1879.—Wm. BARR, Esq., Bovine, Mississippi—Dear Sir: Your inquiry in regard to the "Liver case" which was effectually cured in my family from using the "Seven Springs Mass," is before me.
The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been amember of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, &c. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she continued steadily to improve, and at this writing, so old, seemingly in as good health as a person who had never seen afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints for which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WAD-DILL, Proprietor Lynchburg News. For sale by Wm. Simpson, Pescud, Lee & Co., and F. H. Heartt, Raieigh, N. C., and Druggists generally.
